 DESCRIPTORS *Accessibility (for Disabled); Agricultural Education; Assignments; Business Education; *Class Activities; Classroom Design; *College Programs; Community Colleges; *Course Descriptions; Disabilities; General Education; Instructional Materials; Laboratories; Physical Activities; *Psychomotor Skills; Teaching Methods; Two Year Colleges; Two Year College Students; Vocational Education

ABSTRACT

As a reference guide for handicapped students at Delhi College, this handbook provides information relative to and identifies the physical skills necessary for the completion of core courses in 37 academic programs in the areas of agriculture and life sciences, engineering technologies, business and management, vocational education, and general studies. For each program, the handbook provides information about: (1) course requirements in terms of lectures, laboratory work, reading assignments, library work, papers, guest lectures, field trips, and internships; (2) the physical accessibility of the lecture and laboratory settings and the type of furniture utilized in these settings; (3) the instructional methods and materials used in lectures and laboratories and the availability of special assistance and alternative examination methods; (4) the physical demands of the course, including requirements for standing, stooping, lifting, motor coordination, tactile sensitivity, ability to take notes, and task completion speed; and (5) the extent to which the class environment duplicates actual working conditions. Technical electives and independent study courses are not included in the handbook. (JP)

INTRODUCTION

During the Academic Year, 1977-1978, a campus wide committee researched the academic needs of disabled persons on campus and recommended action in compliance with Section 504 of the Rehabilitation Act, 1973. One of the documents used in the review of academic programs was entitled Vocational Education: A Manual of Program Accessibility for the Physically Disabled Two-Year College Applicant, State University of New York coordinating area No. 4, Research Project. One committee recommendation, based on its research and the above mentioned manual, called for the publication of a campus booklet which would detail the physical skills used in the academic programs. This booklet is the result of that recommendation.

PURPOSE OF THIS BOOKLET

Everyone, disabled or not, must make personal decisions about future goals based on individual perspectives, ideals, interests and capabilities. The primary purpose of this booklet is to offer disabled, potential students a reference guide which lists academic programs conducted at Delhi College and the range of performance expectations necessary for successful completion of those programs. Our aim is to provide disabled students with the information they need to make a realistic appraisal of course selections at Delhi. No attempt to advise has been made in this publication.

As to the information contained in the brochure please understand that the specifications are not necessarily cast in stone. In fact, we will make every effort to be as flexible as possible within our academic programs to make learning opportunities possible for disabled students.

A major goal at Delhi is to bolster and support the academic pursuits of disabled persons.

Delhi's certificated and degree programs include a variety of core courses and technical and non-technical electives. The information in this booklet includes a combined profile of each program's core courses. These represent program requirements which cannot be waived and which must be successfully completed by all students to meet degree or certificate requirements.

Technical electives have not been included in the combined profile because the student has a number of choices, and it is virtually impossible to identify a typical program combination involving technical electives. The technical electives for each program are listed in the College Catalog.

The booklet includes profiles of the College's service areas for the instructional programs. These are science, math, social sciences, humanities, and physical education. Depending on individual programs, students will elect courses from these service areas. Physical education is a College requirement.

Profiles for the College's liberal arts and sciences program in humanities-social sciences and mathematics-sciences are not included. The core requirements for these programs are not stipulated in terms of specific courses but rather, credit requirements and are so flexible that there is no typical combination of courses which can be identified. Students have wide latitude in selecting courses from the major service areas to complete credit and degree requirements.

The College has, in most of its approved programs, a provision for an independent study course. Since these courses are so flexible in nature and are conducted differently by most faculty, no meaningful profile of physical and content requirements is feasible. Independent study is, in essence, an adaptable course which can be structured to meet the interests and abilities of individual students.

HOW TO USE THIS BOOKLET

Find the program in which you are interested. Listed under the program are five major categories:

- A. Course Requirements
- B. Lecture Setting
- C. Laboratory Setting
- D. Lecture and Laboratory Instruction Methods
- E. Physical Demands of the Course (Both Lecture/Lab)

Under each of these categories there are questions with the compiled percentage response.

Example:

Under A. COURSE REQUIREMENTS

Lectures - Question 1 "Number Per Week"? This means how many lectures are given in these core courses per week.

Response:

3 Lectures - 60%; this means that 60% of the core courses in the particular program require 3 lectures a week. The remaining ones require more or less than 3 lectures per week.

Question No. 2

"Length of each lecture"? This means how long is each lecture.

Response:

1 hour - 86%; this means that in 86% of the core courses in this program the lectures are one hour in length.

Question No. 5

"Average textbook pages per week"? This means how many textbook pages are assigned each week?

Response:

0 Pages - 43%; 10 Pages - 43%. This means that in 43% of the core courses in this program, 0 pages are assigned weekly and in another 43% of the core courses 10 pages are assigned weekly.

Example:

Under B. LECTURE SETTING

Question No. 21

"Is the same room used consistently"? This means that the same room is assigned to the core course sections all the times.

Response:

"Yes - 57%. This means that in 57% of the core courses the room assignment is the same. In the remaining 43% of the core courses the same room is not used consistently.

The service courses are grouped and listed separately but the responses are to be interpreted the same way.

The responses in this survey reflect the typical course situations without particular reference to disabled students.

TABLE OF CONTENTS

Approved Program Offerings 1978-1979

I. Division of Agriculture and Life Sciences	
Animal Husbandry (Dairy)	6 - 7
Animal Husbandry (Horses)	8 - 9
General Agriculture	10 - 11
Horticulture (Plant Science)	12 - 13
Medical Laboratory Technology	14 - 15
Veterinary Science Technology	16 - 17
 II. Engineering Technologies Division	
Architectural Technology	18 - 19
Building Construction	20 - 21
Civil Technology	22 - 23
Engineering Science (Transfer)	24 - 25
Industrial Technology (Data not available)	
 III. Division of Management	
A. Business	
Accounting	26 - 27
Business Administration	28 - 29
Marketing	30 - 31
Secretarial Science	32 - 33
Secretarial Studies	34 - 35
B. Hotel, Restaurant and Food Services Management	
Hotel Technology	36 - 37
Restaurant Management	38 - 39
Food Services Management - Institutional Foods	40 - 41
C. Recreation and Parks Management	
	42 - 43
 IV. Vocational Division	
Automotive Mechanics I	44 - 45
Automotive Mechanics II	46 - 47
Carpentry I	48 - 49
Carpentry II	50 - 51
Drafting I	52 - 53
Drafting II	54 - 55
Electrical Construction and Maintenance	56 - 57
Electrical Instrumentation and Controls	58 - 59
Licensed Practical Nursing	60 - 61
Masonry	62 - 63
Plumbing, Heating and Pipefitting	64 - 65
Refrigeration and Air Conditioning	66 - 67
Welding	68 - 69
 V. General Studies Service Courses	
Health and Physical Education	70 - 71
Social Sciences	72 - 73
Physical Sciences	74 - 75
English and Humanities	76 - 77
Mathematics	78 - 79

	<u>No. of/Ans.</u>	<u>% of Core Courses</u>
A. COURSE REQUIREMENTS		
Lectures		
1. Number per week?	2 Lectures	43%
	3 Lectures	43%
2. Length of each lecture (hours)?	1 Hour	86%
Laboratories		
3. Number per week?	1 Lab	57%
4. Length of each lab (hours)?	0 Hours	29%
	2 Hours	43%
Textbook and Reading Assignments		
5. Average textbook pages per week?	0 Pages	43%
	10 Pages	43%
6. Average reference and/or handout pages per week?	0 Pages	29%
	20 Pages	29%
Library Work		
7. Is research work required?	No	100%
Papers or Reports		
8. How many are required?	0 Reports	71%
9. How many pages is the average paper?	5 Pages	100%
Guest Lectures		
10. Are guest lectures used?	No	71%
Field Trips		
11. Number required?	0 Trips	86%
12. Is transportation provided?	No	100%
13. Are trips crucial to success in the course?	No	100%
14. Can other activities be substituted?	Yes	57%
Internships or Apprenticeships		
15. Required outside college setting?	No	100%
16. Conducted during the academic year?	No	86%
17. Conducted during the summer?	No	100%
B. LECTURE SETTING		
Room Assigned		
18. Is a special room required other than a level or sloped lecture room?	No	100%
19. Are special tables or chairs required?	No	100%
20. Is space near lecturer available for a wheelchair?	Yes	100%
21. Is the same room used consistently?	Yes	57%

C. LABORATORY SETTING

Room Assigned

22. Is a special room required?	No	57%
23. Is an outdoor setting involved?	No	86%
24. Is an off-campus setting involved?	No	100%
25. Are special tables required?	No	100%
26. Is standing required at special tables?	No	100%
27. Is stool seating used at special tables?	No	100%
28. Is chair seating used at special tables?	No	100%

Building Assigned for Special Room

29. Are entrance doors at sidewalk level?	No	57%
30. Is there a ramp entry?	No	86%
31. Is the special room on the first floor?	No	57%
32. Is an elevator available if room is on upper floor?	No	100%
33. Is the same room used consistently?	Yes	71%

D. LECTURE AND LABORATORY INSTRUCTION METHODS

Audio-visual Materials Used

34. Slides or overhead?	Yes	100%
35. Movies or videotapes?	Yes	86%
36. Records or tapes?	Yes	100%
37. Pictures, charts, diagrams?	No	57%
38. Are materials available to students outside class?	Yes	86%

Examinations

39. Are exams time-limited?	Yes	86%
40. Is the time-limit extended for any students?	No	57%
41. Are alternative methods of exams provided for any students?	No	100%

Miscellaneous

42. Are aids/aides for students allowed in class?	Yes	100%
43. Is shared note-taking acceptable?	Yes	71%
44. Is an outline of course material available in advance?	Yes	71%
45. Is a glossary of technical words available before the course starts?	No	57%
46. Are key phrases written during class?	Yes	86%
47. Are assignments made orally?	Yes	100%
48. Are assignments made in written form?	Yes	71%

	<u>No of /Ans.</u>	<u>% of Core Courses</u>
Office Hours		
49. Are your office hours posted?	Yes	100%
50. Do students receive a copy of your schedule?	Yes	71%
51. Is your office accessible by a wheelchair?	No	71%
E. PHYSICAL DEMANDS OF THE COURSE (Both Lecture and/or Lab)		
52. Sitting for long periods (1 hour +)?	Never	43%
